bachelor thesis

Secure AI-Accelerated Development in Agile Workflows

[2026]

SAIF, a five-part framework for how small teams integrate AI-accelerated development into agile workflows while balancing security, architecture, and reliability. A group project with Krister Eriksen and Bendik Hagen.

WITH Krister Eriksen, Bendik Hagen

GRADE A

YEAR 2026

ctf

Mostly crypto, pwn, and web. Three podium finishes, plus my strongest showing against a full open field at EPT. I also co-hosted a Cybvest edition once.

STRONGEST SHOWING

4th student team, EPT 2025 16th overall

FURTHER RESULTS

EVENT	ROLE	RESULT
Cybvest CTF	team	1st
Helt Sikker CTF	solo	3rd
Kongsberg Gruppen × Helt Sikker CTF	team	3rd
EPT 2024	team	34th overall, 8th student
Cyberlandslaget Christmas CTF	–	participant

Kongsberg Gruppen × Helt Sikker CTF was my first CTF.
